- Review Management
- No cost upfront

The Tour Booking Engine

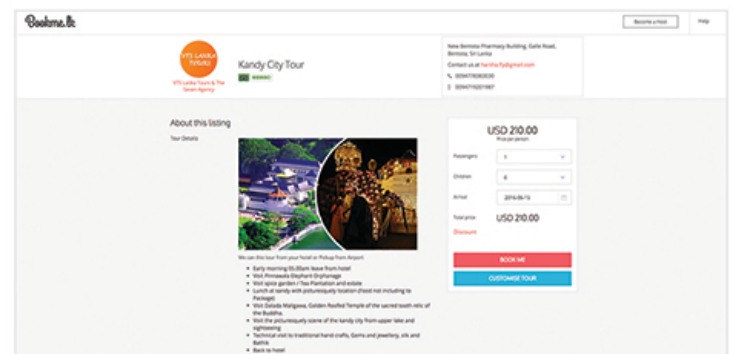

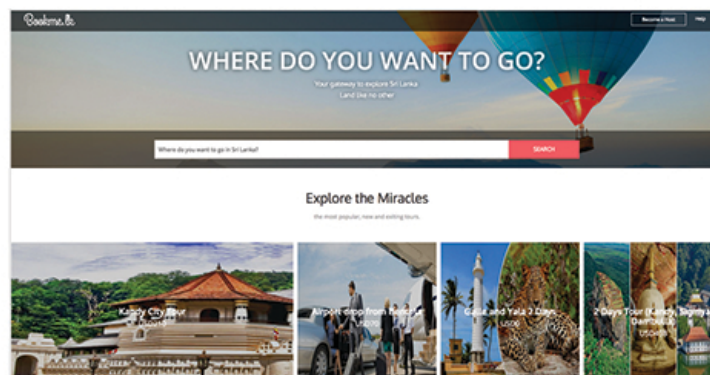

Bookme.lk offers tour operators the opportunity to increase their number of tours sold for a fraction of the cost using the comprehensive booking engine.

The booking engine comes with an extranet that will allow tour operators to upload all details regarding a tour (tour description, images, pricing, etc.) which will be linked to their own website and displayed on the Bookme.lk portal.

The extranet also comes with a Dashboard which will allow tour operators to view and manage all their tour bookings that have come through Bookme.lk and a notification feature to keep tour operators up-to-date with their bookings. They will receive SMS and email notifications of new bookings, payment confirmations, request for a customised tour package and any changes made to an existing booking. Furthermore, tour operators will also be able to generate detailed sales reports as required.

Interested tourists who visit the website or the portal will be able to make a booking for the tour they are interested in via the booking engine. Within the booking engine, they will be able to enter the required details, such as; customer details, number of people, special request, etc. and process an online payment via the

Those who require a customised tour package, will have the option of requesting for one by submitting their requirements to the tour operator. Tour operators will be able to send a tailored quote and customers will be directed to the booking engine via a link embedded in the quote.

MORE SOLUTIONS BY NEGETE

A unique and comprehensive Sales Force Empowerment solution that can automate your sales & distribution process using its' efficient mobile app and a powerful CRM and Sales Information System (SIS).

Express Web

NEGETE

Express Web, a feature rich solution for Corporate and e-commerce websites. Businesses can tap into the potential of e-commerce as it offers readymade solutions that offer a significant cost advantage and is flexible with a set of on-demand features, affordable and most of all it simplifies the process so that the website and CMS is ready for use within a few days and is mobile ready.

e-Mag provides the opportunity for publication houses to reach a larger global audience by taking their publications online. e-Mag provides a platform to encourage publishers to leverage on the lack of a print publication cost and embrace the Internet as another medium to display their content and enhance their revenue.

The SMS Plus, an ideal solution that will enrich communication within and outside the organisation between the relevant stakeholders. The solution can be used as a form of marketing/ branding tool as well as receive feedback or information from customers/ employees in real time via their mobiles.

HEAR WHAT OUR CLIENTS HAVE TO SAY

"As I searched for the ideal offshoring service provider related to mobile technologies, I found Negete to be my best bet. Their enthusiasm, entrepreneurial spirit and optimism are infectious. They were able to provide excellent guidance and the transition has gone smoothly. I also noted that their knowledge in the field of mobile technologies to be impeccable. I would highly recommend Negete to any company that wants to outsource their mobile developments."

Brian Amit - CEO
Peercore IT - Melbourne, Australia

"We have been on the lookout for a mobile technology service provider that was forward thinking, quick to react and of course, should have the drive to push us well ahead of our competition. We are pleased that we found all these qualities and much more since our affiliation with Negete. Our new mobile website is an excellent demonstration of Negete's leading edge creation. Their focused and meticulous approach and continuous interaction has improved our online presence tremendously."
